

Product name-Alarm System/Independent Smoke Detector/ Smoke Sensor ALF-SO41

Product classification : Wired Smoke Detector

Characteristic: Independent Smoke Alarm; Batteries Power Supply; Indoor Used;High Quality and Long Service Life

Brand : ALIF

Smoke Detector/Smoke Sensor Alarm System

Description:

This product is a non-coding type smoke detector. When working normally, indicator light flashes one time per 9 seconds; when alarming, indicator light will be normally on, meanwhile output contact action.

- ◆Power interrupt reset / automatic reset optional
- ◆Non-polarity power input
- ◆Alarm output NO / NC optional
- ◆SMT technology, strong stability
- ◆Metallic shield, good anti-interference(20v/m-1GHz)

Parameter:

Operating voltage	DC12V ~ DC30V
Working current	12mA (Relay-NC), 500uA (Relay- NO)
Alarm current	10mA ~ 25mA
Alarm output	NC / NO optional; contact capacity: DC28V 100mA
Reset mode	automatic reset / power interrupt reset optional
Alarm indicator light	red, normally on when alarming
Executive standard	8.EN54-7
Sensitivity	8.0.5db/m(±0.1db/m)
Operating temperature	-10 °C to +55 °C
Relative humidity	≤ 95%, no condensation
Dimension	Φ103*53mm (with base)
Carton Size	570*350*405
Packing	105 PCS/ Carton Gift Box
