

## Product name-Reflective infrared detector ABO-5L

**Product classification :** Active Infrared Beam Sensor

**Characteristic:** Reflective ,easy to install

**Brand :** AILIF

Description:

- ◆Apply to the alert of room near the entrance,exit>window,passage,stairs
- ◆Transmitter and receiver integration design,adopt lens reflex way alert, simplify complex wiring work
- ◆Detector adopt thin design,thickness only 23.3mm,wall installation,elegant appearance
- ◆Material:ABS(white)

Parameter:

Model	ABO-5L
Application	factory/school/hospital/villa/store
Indoor Alert Distance	≤5m
Light Source	Infrared LED
Response Time	≥50ms
Alarm Signal	dry contact relay output;contact capacity:30V/0.5A
Power	30mA(DC12V)
Working Voltage	DC 11-28V
Mounting Position	Indoor Entrance,Exit,Window,Passageway etc.
Weight	Sensor 80g;Reflector:32g
Case material	ABS(white)
