

## Product name-Active Infrared Beam Detector ABT-M10

**Product classification :** Active Infrared Beam Sensor

**Characteristic:** Elegant design,fit for indoor use

**Brand :** AILIF

Description:

- 1.Apply to the alert of room near the entrance,exit>window,passage,stairs
- 2.Transmitter and receiver integration design, adopt lens reflex way alert, simplify complex wiring work
- 3.Detector adopt thin design,thickness only 23.3mm,wall installation,elegant appearance
- 4.Mounting: Wall mounted
- 5.Wiring Terminal Blocks
- 6.Alarm Indication: Red LED indication 7.Material:ABS(white)

Parameter:Model	ABT-M10
Number of Beams	2
Detection distance	10m
Application	Walkways,entrance and exit,stair,packing lot
Working Voltage	DC 11-24V
Max Current	40mA(DC 12V)
Reponse Time	100m sec
Alarm Output	NC/NO
Contact Capacity	30V/0.5A max
Alarm Indication	Red LED indication
Mounting	Wall mounted
Wiring	Terminal blocks
Color	Creamy-white
Dimensions	106*62*25mm
Weight	150g
